TUESDAY MORNING ..... APRIL 17, 1860.

Before our next Weekly is circulated he nominations will be made at Charleston. and we shall know who are to be our standardbearers in the coming struggle. It is already settled that the contest will be between the democratic and Republican parties. Several listinguished men will be presented at tharleson, and not ene has been named who would not do eredit to himself in the exalted station gates will, of course, present to the Conven-

It is true ome short-sighted individuals have made a reat ado over a theory of theirs-a pet crotchet hat has got cross-wise in their heads and rown to great magnitude; but Democratic ters generally are not afflicted in that way. the South, it is simply a question whether se shall have a friend or an enemy for Pres ent. Nothing can be more pourile than uibble about a barren theory.

We want a nomination to win-a man who as no sectional prejudice to gratify; who will nake no distinction between North and South r allow any to be made. The Convention ill nominate such a man, and then let every emocrat be at his post. The nominee will be resident during the ensuing four years, or the ederal Government will fall into the hands of party thoroughly sectional in sentiment, fee ng and spirit. It can't be disguised that the ntest will be confined to the free States, and hat we shall have little to do South. We can only look on at the conflict between our friends nd enemies on the other side of Mason & Dixou's line. They will make a gallant fight against sectionalism, and win, if they have a air field. The Charleston Convention will look this fact; the delegates can't be so blind as overlook it. Whatever the result may be, he nominee must be elected. The future wellare of the country demands it, regardless of

A Ceremony in Japan. They have a Pope, it seems, in Japan, who sides in the city of Miako, which is forbidden ground to all foreigners. This Mikado, or overeign pontiff, is an object of adoration, not only to the Japanese, but to all Bhuddists, and even to the followers of Confucius. Although monogamy is the ordinary law of the o hold no less than one hundred wives, one of whom, the Ohohime, becomes at once his spouse and his mother. The eeremony of se eting this duplicate character occurred re cently at the above-named holy city, amid great pomp and ceremony, in which all the high priests and astrologers of the country partici pated. The streets leading to the palace were strewn with flowers, white drapery was suspended from the dwellings, and men and women of every grade surrounded the numerou temples. Soon the high priest appeared in his rich vestments, followed by more than three thousand friars and deans, who served as his escort, and proceeded to the palace. At noon the curtain was drawn and a brilliant scene elosure a throne was erected, composed of numerable precious stones, while a fine sil ver gauze formed a canopy above it. The Mikado was seated on a mat upon the floor, dressed in a long white gown, with a goblen mitre on his head. Opposite to him were eighty-eight women, clothed in all imaginable colors, while twelve young girls were ranged rowns of flowers. Suddenly the noise of gongs

The great and justly deserved reputs tion of John Bull's Compound Pectoral of Wild Cherry has produced a host of worthles naisances some of them made from the com mon cherry, and some of them containing no cherry at all, but in place of it a deadly poison known as prussic acid. Beware of them all and if you need a remedy for any affection of the lungs and throat, get the article prepared by Dr. Bull from the wild cherry. The common garden cherry has no medical properties

Double Mole Drain Plow. We took a ride on Friday to the farm of E.

G. Minor, Esq., some four miles from the city, to examine the work of the double mole drain plow used in draining a beautiful meadow on his farm. We shall not attempt to give description of this neeful and modern improve ment. Suffice it to say, it is a great labor saving machine, and one of the most useful in ventions of the age to promote the interests of the agriculturalists. It is only of its work we would speak. At a distance of two, three or four feet from the surface of the earth, the mole drain plow forms a nicely arched cavity-a ditch, in short, with rounding bot tom and oval form above. These drain ditches are made to extend any given length-from twenty rods to five hundred, if required. On Mr. Minor's farm, they run in parallel lines some thirty-three feet apart. They all empty into a common ditch dug to carry off the water. When we examined the work on Friday, three days after the rain of Tnesday, we found each of the drain detches discharging water, some of them more than others, but the stream in the common ditch.

The surface soil of the meadow was mno dryer than a meadow adjoining of a nearly similar grade, but which had not been under drained. The advantage of draining land has long since been conceded. The great decidera tum with the farmer is, how shall it be done in the best manner at the cheapest cost. We drain three years ago is standing as sound as when the drain was first made, and that the side Sixth, between Main and Mar benefits to the soil are fully appreciated provements, subject to life estate of Mrs. Curd Mesers. Gates & Co., who have drained the mesdow for Mr. Minor, have made some im-tween Main and Market, and improvement provements on Cole & Wall's patent of value subject to same life estate; \$2,690. to the farmer, and which will render it a cheap and useful implement upon the farm: cheap, ause, at an expense of four or six cents per red, or less, they can drain their lands, with their own machine, as thoroughly as it can be done with tile at a cost of sixty-five to seventyfive cents per rod. These gentlemen are ready to make the machines for farmers who may wish to buy the right to use them; also to sell rights for counties or States south of the Ohio

The advantage of thorough draining may be briefly stated as follows: 1st, it deepens the soil; 2d, it allows pulverization; 2d, it prevents surface washing; 4th, it lengthens the season for labor, growth, and vegetation: 6th, it prevents freezing out; 6th, it prevents drouth; 7th, It warms the soil; 8th, it supplies air to the roots: 9th, it promotes absorption of fertilizing substances from the air; 10th, it improves the wality as well as increases the quantity of

BUSINESS AFFAIRS

SILES AT A SACRIFICE. - Guibrie & Brother. will sell their entire stock of Fancy Silks at prices forty per cent. less than their value. Parsons in want of choice spring silks can now get them at half price.

The Messrs. Guthrie have the best stock of dress goods in the market. In Lace Maniles Parasols, Poplins, Linens and domestics every description, their purchases are unusually complete. Fourth street.

You will find a great variety of fine Watches, Clocks, Jewelry. Silver Ware, Spec tacles and everything in the jewelry line at P W. Ramsey's, on Third street, where you can get a bargain, if you will call.

"How Small WE DRESS"-AN IMPORTANT Question .- A fashionable woman's first question, on almost every subject, is invariably. "How shall we dress?" And in solving th very important problem every other point is a once and entirely lost sight of. Like the masculine "What shall we take," it is the alpha and omega of every conversation. Then as this subject of dress has absorbed so much of the attention of our people, il is important to know where a gentleman can get an outfit that will give him character as a man of taste J. M. Armstrong, on Main street, opposite the National in processing the the host publication. National, is recognized as the best authority for slyles in this city. His stock of men's youth's, and children's clothing, for the present season, is unusually handsome. Call

Doors, Sase, Blinds, Boxes, Lumber and BHINGLES. - Messrs. Breeden & Bradley have on hand a large lot of doors, sash, blinds, toxes, &c., at their warerooms, on First strect, between Main and the river, and Ihey are prepared to execute all orders for woodwork necessary for the inside finish of frame or brief houses of every description, as herelofore. They invite special attention to the large stock of well-seasoned pine lumber and shingles at their yard on Walnut street, between Easl and Floyd. They furnish bills of prices on appli-cation, and solicit orders in their line.

A a time when there is great fear Iha the stock of dry lumber, sash, doors, blinds &c., will fall short, owing to the vast amoun of improvements in Louisville, it will be inter esting to the public to know that Alexander Ellis & Co., have enlarged their factory and have now on hand several million of dry lumber. Call at their office on Main street, nearly

TRUNKS .- Among the places worthy of the attention of the visitors to Louisville at The present time, is the great trunk manufactory and emporium of J. H. McCleary, on the rtheast corner of Fourth and Main streets. His large manufactory enables him to supply trunks, valies, bonnet and hat boxes, carpet baga, bureau trunks, etc., of the very best quality, at unprecedented low prices. All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Interests. The people are aware that D. O'Hare, No. experienced manufacturer of trunks and similar articles in the city. They should avail themselves of the rare opportunities afforded by Mr. O'Hare. To country and city merchants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to

travel, whether with a small carpet-bag or a mammoth trunk, need go no further than to the Great Western Trunk Factory of Mr. O'Hare. His manufactory is a credit to Louisville, and should meet with extensive patronage. Ilundreds of workmen are employed, and thousands of dellars weekly disbursed. As a matter of thome pride, and to subserva economy, purchasers will consult their best interests in purchaseing of Mr. O'Hare. chasing of Mr. O'Hare.

BARRY's TRICOPHEROUS is the best and cheapest article for dressing, beautifying cleansing, curling, preserving and restoring the hair. Ladies, try it. Sold by all Drug giels and Perfamers. mr16 d6m

FINE FURNITURE. - Wharton & Bennett keep y on nand a large stock of desirable parlor, office and chamber furniture, of all kinds and patterns which they sell at their wareroom at the lowest prices. Their store is Nos. 502 and 504 Market street, between Second and Third.

Hoor SKIRTS .- John M. Robinson & Co. are now manufacturing a large stock for the Spring trade. Their Skirts have attained great popularity, as they use only the very best tempered watch spring steel, and each hoop is fastened to the tapes by means of a woosen loop instead of the ordinary clasp. Thus effectually preventing the annoyance of the tapes being constantly out. Their skirts can be had at all the retail houses throughout he South and West. Seld only at wholesale.

J. N. Collins sells the best of coal at his office, Third street, between Markel and Jefferson. Give him your orders.

McLean's Strengthening Cordial .- This invaluable compound, we are glad to know, has become the most popular remedy in the United States. Nearly every family keeps if on hand. They find it saves physicians' bills.

A small quantity given in season will ward off
Fevers, or any prevalent disease. See the advertisement in another column. apr3dawlm

LOOK AT THE AUTHORITY.
ROKONO, IND., AUG. 16, 1850.
DR ROBACK—Dear Sir: It is due to you and the public, more especially the afflicted, to say that I have given your invaluable Scandinavian Blood Purifier a fair trial in a number of cases of diseases arising from unhealthy blood, in all of which it has exceeded my expotations, and comes fully up to its recommendations. I do, therefore, with pleasure, recommend it to all the afficied whose disease indicates a remedy of that description.

Yours, truty,

Good.-A lunatic once informed a physician who was classifying cases of insanity, that he lost his wits by watching a politician, whose course was so crooked that it turned his brain.
If, on the contrary, he had been walching the effects of Heimstreet's Hair Restorative, he would have saved his wits and learned a curious triumph of Art over Nature. See adver-fel8d&w3m.
